Incident Investigations

- Runaway cart - no additional recommendations from the committee.
- Near miss knife in outlet - committee commented on the presence of a pocket knife in the welding lab. Barry reiterated that the work study student should not have been doing any repair or adjustments with any electrical equipment, which was well outside of the approved scope of practice.

Concrete Work

- No updates available.

Safety Work Order Reports

- Minel reported that the fire door replacement is a larger project, involving the wall structure.
- Minel shared that the equipment has arrived and the smoke sensors in the ADM building should be finished by next week.

New Business

- No new business

Old Business

- Concrete audit and project. Minel did not have an update regarding the concrete project.
